André Graccia

Software Engineer | Java, Python and Test Automation

São Paulo, SP, Brazil | andregraccia2105@gmail.com | linkedin.com/in/andregraccia | github.com/AndreGraccia

PROFESSIONAL SUMMARY

Computer Science student and Software Engineering professional at Cielo, with experience in Python automation, automated testing, failure analysis and maintenance of enterprise systems (COBOL, Mainframe, DB2 and SQL Server). Java is my main language: I build REST APIs with Spring Boot, SQL and Docker in personal projects. Interested in backend, AI agents and cloud.

PROFESSIONAL EXPERIENCE

Software Engineer (Software Engineering Apprentice) - Cielo

Barueri, SP, Brazil | July 2026 - Present

- Build Python automations and contribute to automated tests, failure analysis and system validation.
- Maintain COBOL and Mainframe applications, using DB2, SQL Server, JCL, TSO, ISPF and CICS.
- Use Artificial Intelligence to support testing and analysis tasks.
- Work with cross-functional teams, following Software Engineering and Software Testing best practices and continuous improvement.

IT Support - Cotia City Government (Prefeitura Municipal de Cotia)

Cotia, SP, Brazil | April 2026 - July 2026

- Supported public servants and kept the IT infrastructure running.
- Diagnosed and fixed hardware, software, network and system issues, with preventive and corrective equipment maintenance.
- Managed user accounts and logged tickets in GLPI, ensuring continuity of IT services.

PROJECTS

Interest Calculator (Calculadora de Juros) - Java, Spring Boot, Maven (github.com/AndreGraccia/calc-juros)

- Java 25 and Spring Boot API that calculates simple and compound interest with BigDecimal (precision for monetary values), input validation and automated tests.

wall.ia - Java, Spring Security, JWT, PostgreSQL, React, Docker (github.com/AndreGraccia/wall.ia)

- Full-stack digital wallet with financial management, JWT authentication with Spring Security, PostgreSQL and Docker.

Orbit.IA - React, n8n, Docker, PostgreSQL (github.com/AndreGraccia/Orbit.IA)

- Personal AI agent with a React interface and n8n workflows, integrated with Google Workspace and GitHub, with Docker for n8n and PostgreSQL.

EDUCATION

Bachelor's Degree in Computer Science - Anhembi Morumbi University (UAM)

February 2025 - December 2028 (expected)

High School - E.E. Paulo Soares da Silva (February 2018 - December 2024)

TECHNICAL SKILLS

- **Languages and Mainframe:** Java, Python, SQL, COBOL, JCL, TSO, ISPF, CICS
- **Backend:** Spring Boot, Spring Security, REST APIs, JWT, JPA
- **Databases:** PostgreSQL, MySQL, SQL Server, DB2
- **Testing and quality:** Test Automation, Software Testing, JUnit, Python
- **DevOps and tools:** Docker, Git, GitHub, GitHub Actions, Maven
- **AI and automation:** n8n, LangChain, Generative AI, AI Agents

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified Foundations Associate
- Artificial Intelligence and Productivity (Inteligência Artificial e Produtividade)
- Programming Logic (Lógica de Programação)

LANGUAGES

Portuguese (native) | English (B1, intermediate) | Spanish (basic)
